

Carbon Reduction Plan

Kebomed UK Ltd

Kebomed UK Ltd is committed to achieving net zero emissions by 2045 when we plan to have reduced our emissions by 100%.

Kebomed UK: - Carbon Footprint reduction plan December 2025

Baseline Emissions Footprint vs Current Emissions Footprint

Baseline emissions are a record of the greenhouse gases that have been produced in the past and were produced prior to the introduction of any strategies to reduce emissions. Baseline emissions are the reference point against which emissions reduction can be measured.

Emission Scope	Baseline Emissions, 2019 (tonnes CO2e)	Current Emissions, 2025 (tonnes CO2e)
Scope 1	23.7304	0.0000
<i>Energy Purchased (Sites, Other Emissions)**</i>	0.0000	0.0000
<i>Company Cars (Company Cars, Other Emissions)</i>	23.7304	0.0000
<i>Delivery Vehicles (Delivery Vehicles, Other Emissions)</i>	0.0000	0.0000
<i>Air Conditioning / Refrigerants (Other Emissions)</i>	0.0000	0.0000
Scope 2	5.7929	5.0360
<i>Electricity (Sites, Other Emissions)**</i>	5.7929	5.0360
Scope 3	1,574.3538	307.0832
<i>Purchased Goods and Services (Sites, Other Emissions)**</i>	0.0202	0.2551
<i>Capital Goods (Other Emissions)</i>	0.0000	0.0000
<i>Fuel & Energy Related Activities (Other Emissions)</i>	0.0000	0.0000
<i>Upstream Transportation & Distribution (Freighting Goods (Upstream), Other Emissions)</i>	716.8917	203.2276
<i>Waste Generated in Operations (Waste Disposal, Other Emissions)</i>	0.5312	0.5299
<i>Business Travel (Hotels, Air Travel, Public Transport & Hire Cars, Employee Owned Vehicles, Company Cars, Other Emissions)</i>	851.9497	61.1668
<i>Employee Commuting (Home Working, Employee Commuting, Other Emissions)</i>	4.9610	9.8971
<i>Upstream Leased Assets (Other Emissions)</i>	0.0000	0.0000
<i>Downstream Transportation & Distribution (Freighting Goods (Downstream), Other Emissions)</i>	0.0000	32.0067
<i>Processing of Sold Products (Other Emissions)</i>	0.0000	0.0000
<i>Use of Sold Products (Other Emissions)</i>	0.0000	0.0000
<i>End of Life Treatment of Sold Products (Other Emissions)</i>	0.0000	0.0000
<i>Franchises (Other Emissions)</i>	0.0000	0.0000
<i>Investments (Other Emissions)</i>	0.0000	0.0000
Total	1,603.8771	312.1193

Kebomed UK: - Carbon Footprint reduction plan September 2026

Carbon Reduction: Projected vs Actual

In order to continue our progress to achieving Net Zero, we have adopted the following carbon reduction targets. We project that carbon emissions will decrease over the next years to 160.3877 by 2045 this is a reduction of 90%

Comments: -

Data is collated from January to December.

Upstream deliveries are calculated from suppliers' addresses worldwide. Kebomed UK do not own any delivery vehicles.

2020 - Due to the global pandemic (Covid-19) our sales order book reduced significantly resulting in reduction of staff, staff travel, purchase of stock and the need for couriers & freight forwarders to deliver products.

2021 - The pandemic still influenced our order book & travel but signs of improvement.

2022 - Business activity starting to get back to pre-Pandemic levels, no travel restrictions.

2023 - Business activity back to pre-Pandemic levels, we have 2 new members of staff & new product portfolio added to KUK offering.

2024 - Mid 2024, KUK diversified adding a new Enteral feeding division to its portfolio. Which will increase the team size, supplier portfolio, stock holding and upstream/downstream deliveries.

2025 - Kebomed has a new more central head office & warehouse location and employs more staff. The more central location of the warehouse means most downstream deliveries have less distance to travel.

Kebomed UK carbon reduction initiatives, environmental management measures and projects.

Our environmental management system across the UK is UKAS certified to ISO 14001:2015 and is audited annually. It focuses on objectives and actions on areas that will have the most significant environmental impact both in the short and long term.

- Continuously work to collect the highest quality, primary data on our emissions to aid in reduction and progress measurement.

Head office & Warehouse

- Office lighting LED timed lighting controls have been installed.
- New eco-friendly heating & cooling systems are installed in office areas.
- Electronic equipment turned off overnight.
- Waste generated through our operations is sorted so a minimal amount goes into landfill.
- Office recycling bins are in place e.g., paper, plastic, tin, food waste etc.
- Local recycling firm contracted to collect all dry recycling. We are working to reduce this by: - reusing any cardboard boxes, working with suppliers to reduce the amount of packaging they use.
- We currently estimate we recycle / reuse /repurpose 100% of all incoming cardboard, paper & plastic packaging.
- Introduction of Multi-Functional Devices for all to use rather than one e.g., office printers and scanners will be reduced in number in the office and upgraded to more energy efficient models. Data storage upgraded and cloud based.
- Implement paperless office.
- Printing only when necessary; double sided.
- All paper purchased is 100% recycled.
- Plans for new office building in 2026 with solar panels that feed into battery storage that can be redistributed around the

Kebomed UK, Swaines Hill Manor, Estate Offices, Swaines Hill, Alton GU34 4DP

office, underfloor heating thermostatically controlled by thimble sensors powered by an Air source heat pump, presence detectors in some areas to activate lighting and high value insulation in floors, walls & ceilings.

Team

- We run communications to drive awareness around events such as World Environment Day etc.
- We contract with an e-learning platform with all our team to support their development.
- We build awareness amongst our team of the impact of their decisions on our journey to Net Zero by holding firm-wide engagement sessions.
- Reduce business travel by air, rail, and road through effective measures and a sustainable travel policy.
- Improve scheduling of meetings and positioning of sales staff to reduce distances travelled and multiple visits to a city/region.
- Switch road/air travel to rail.
- No company cars are used.
- Own cars are used for business; we encourage and recommend hybrid or electric cars.
- Send annually driving Safer Driving and Fuel-Efficient driving tips.
- Reduced commuting mileage/fossil fuel mileage – increased use of public transport and walking/cycling; electric company cars; electric car charging points; cycle-to-work scheme.
- Introduction of remote/hybrid working for office staff.
- Reduce domestic and international business travel by encouraging online meetings

Supply chain

- We have built sustainability into our procurement processes and include Environment and Net Zero questions as part of supplier selection process & annual supplier questionnaire audit.
- Work with suppliers to understand their own emissions and encourage them to set their own carbon reductions targets. These are shared through their websites. Similarly work with suppliers regarding packaging, disposal and WEEE directive
- All product literature is available electronically & via Kebomed UK website although some are printed due to patient leaflets or conferences to demonstrate what is available.
- We work with our suppliers to see whether they can replace/have available their printed DFU's for electronic QR codes / electronic links.

Transportation

- All freight forwarders /couriers have environmental policies and carbon reduction plans.
- When choosing the freight forwarder / courier, choose the most eco-friendly route sea, air, road.

Kebomed UK Leadership team are committed to KUK reaching our targeted reduction plan and remain confident that our current and future measures will enable us to achieve our target reduction in advance of 2045. Due to the nature of our business to reach Net Zero Kebomed will look to invest in Carbon offsetting initiatives.

The carbon emission reduction achieved by these schemes and changing the way we work since 2019 have resulted in reduction of 793 tons of CO₂e which is a 49% reduction against the 2019 baseline.

Over the next ten years we plan to implement further measures which will continue to drive down emissions. We aim to reduce emissions by a minimum of 4% each year. **Scope 1** 168kg CO₂e, **Scope 2** 112kg CO₂e and **Scope 3** 344kg CO₂e

This plan outlines Kebomed UK Ltd Compliance with Action note PPN006 (formerly PPN06/21)

Declaration and Sign Off

This carbon reduction plan has been completed in accordance with PPN 06/21 and the associated guidance and reporting standard for Carbon Reduction Plans.

Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard¹ and uses the appropriate Government emission conversion factors for greenhouse gas company reporting².

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements, and the required subset of Scope 3 emissions have been reported in accordance with the published reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standard³.

This Carbon Reduction Plan has been reviewed and signed off by the board of directors (or equivalent management body).
