

Mizuho® Skull Base Instrumentation

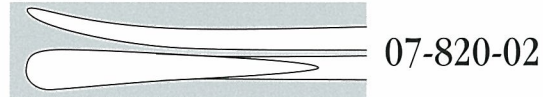

- Slightly curved dissectors of various sizes
- Moderate curved sharp dissectors
- Blunt tip dull dissectors
- Microprobes feature a-traumatic teardrop design, various angles available
- 100 mm Handles
- Fine Caliber Dissectors

Mizuho® Skull Base Instrumentation

Fukushima designed instrumentation for skull base dissections, tumor elevation, and aneurysm surgery.

A-1 5mm Dissector, Sharp, Slightly Curved

A-2 3.5mm Dissector, Sharp, Slightly Curved

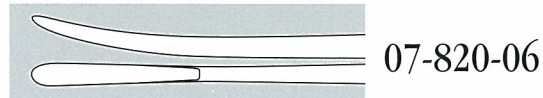

A-3 2.4mm Dissector, Sharp, Slightly Curved

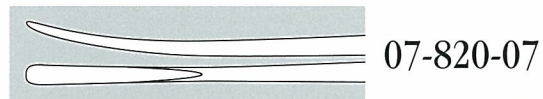

B-1 3.5mm Dissector, Sharp, Slightly Curved

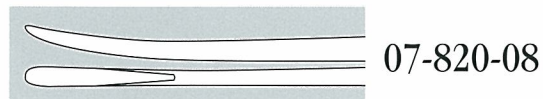

B-2 2.7mm Dissector, Sharp, Slightly Curved

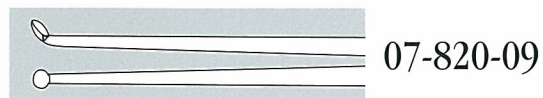

B-3 2.2mm Dissector, Sharp, Slightly Curved

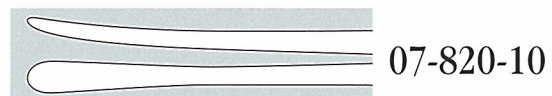

C-1 1.8mm Dissector, Sharp, Slightly Curved

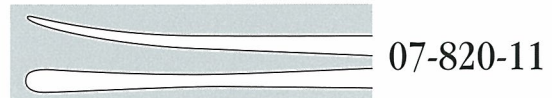

C-2 1.8mm Dissector, Sharp, Moderate Curve

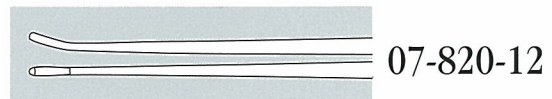

C-3 2.0mm Round Knife, 40 Degree Angle

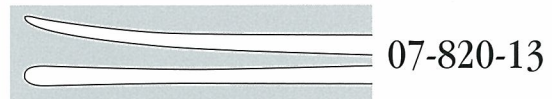

D-1 3.0mm Dissector, Slight Curve, Dull

D-2 2.2mm Dissector, Moderate Curve, Dull

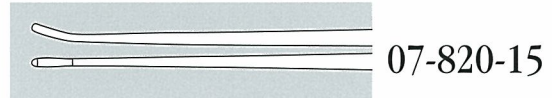

D-3 1.8mm Dissector, Moderate Curve, Dull

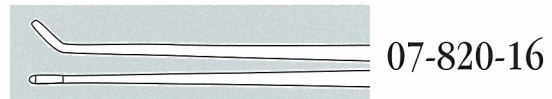

1- 3mm Bayonet Probe, Teardrop Tip, Straight

1A- 3mm Bayonet Probe, Teardrop Tip, Straight

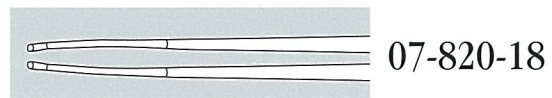

2- 3mm Bayonet Probe, Teardrop Tip, 15 Degree Angle

3- 3mm Bayonet Probe, Teardrop Tip, 45 Degree Angle

4- 3mm Bayonet Probe, Teardrop Tip, 80 Degree Angle

5- Bayonet Probe, Teardrop Tip, Straight Malleable Shaft
