## AMT ENFit® Transitional Adapters

AMT's feed sets and device kits now include the AMT Transition Adapters, which are compatible with the new ENFit® standard. They will be provided throughout the conversion to ENFit®. The transition adapters provide both forward and backward compatibility with ENFit®. Additionally, all transition adapters have AMT's unique Glow Green Technology along with a flared wing connection, allowing for better dexterity. AMT Transition Adapters are available now - **Order Today!**
